

I graduated from Virginia Commonwealth University in 2012. I moved to Chesterfield in 2019 from Williamsburg, where I worked at Colonial Williamsburg Foundation for 7 years. I have been involved with after-school tutoring programs and worked with children in a one-on-one setting in other non-profit organizations over the last 10 years. I enjoy giving back to the community and believe education is the foundation of a better tomorrow, and I'm happy to be a part of it.

When I'm not working with the students, I enjoy time with my family. I enjoy outdoor activities such as camping, hiking, and fishing. I also enjoy traveling, museums, cooking, yoga, live music, and of course, reading. I absolutely love animals, especially cats. I look forward to working with you and your scholar.
